

IO7 – MOOC for Teachers

Self-directed Learning Resource 1

Topic:	Introduction to Information and Data Literacy
Title:	European Framework for the Digital Competence of Educators: DigCompEdu
Time:	It will take you 2-3 hours to scan through this document, and to take note of what is important to you.
Type of Resource:	Document
Content of the Resource	<p>The teaching professions face rapidly changing demands, which require a new, broader and more sophisticated set of competences than before. The ubiquity of digital devices and applications requires educators to develop their digital competence.</p> <p>The European Framework for the Digital Competence of Educators (DigCompEdu) is a scientifically sound framework describing what it means for educators to be digitally competent. It provides a general reference frame to support the development of educator-specific digital competences in Europe. DigCompEdu is directed towards educators at all levels of education, from early childhood to higher and adult education, including general and vocational education and training, special needs education, and non-formal learning contexts.</p>
