

## IO7 – MOOC for Teachers

### Self-directed Learning Resource 5

<b>Topic:</b>	Evaluating data, information and digital content
<b>Title:</b>	Deepfake
<b>Time:</b>	It will take you 40 minutes to review this blog post and video, and to take note of what is important to you.
<b>Type of Resource:</b>	Blog Post and Video
<b>Content of the Resource</b>	<p>Deepfake is an AI-based technology used to produce or alter video content so that it presents something that didn't, in fact, occur. The word, which applies to both the technologies and the videos created with it, is a portmanteau of deep learning and fake.</p> <p>The technology already exists to create convincing -- but inauthentic -- audio and video content -- and those technologies are rapidly improving.</p> <p>This blog post acts as a general introduction to what deepfake is and what it means for the future of digital media.</p>
