IO7 – MOOC for Teachers

Self-directed Learning Resource 5

Topic:	Digital Content Creation
Title:	Digital Conceptual Map and Mind Map
Time:	It will take you about 1 hour to explore these platforms
Type of Resource:	Website
Content of the Resource	Digital conceptual maps and mind maps are a way of organizing content by combining different multimedia (text, video, images, etc.). This can be created either by the teacher to present their lesson, or by the students, as the result of a research or assignment. At the following links you will find some of the platforms that allow to create digital conceptual maps.
