IO7 – MOOC for Teachers

Self-directed Learning Resource 3

Topic:	Digital Content Creation
Title:	Code.org
Time:	It will take you about 1 hour to explore this website and understand how it works
Type of Resource:	Website
Content of the Resource	Code.org is the simplest of the educational programming platforms, suitable for the youngest children. It contains games and videos that require pupils to win challenges and solve problems: all that has to be done is read instructions well, observe and be careful to avoid traps and reason on which can be the best solution to lead the main character of the game to the end of the challenge.
