

## IO7 – MOOC for Teachers

### Self-directed Learning Resource 1

|                                |   |
|--------------------------------|---|
| <b>Topic:</b>                  | Protecting Data and Digital Identity  |
| <b>Title:</b>                  | Internet Identity   |
| <b>Time:</b>                   | It will take you 15-20 minutes to read the chapter and to take notes on what is important to you.   |
| <b>Type of Resource:</b>       | Book Chapter  |
| <b>Content of the Resource</b> | <p>Abstract:</p> <p>In this chapter, the analysis will focus on the concept of digital identity, which is evolving and changing, based on the experiences that every individual lives. The chapter further highlights how the digital identity includes the fundamental human rights such as the right to a name, the right of reply, the right to protection of personal data and the right to an image. In translating the right to personal identity to our digitalized era, with its massive use of social networks, we have added to the related decalogue of rights the right to oblivion, equally called right to be forgotten. Given the complexity of the subject, the chapter develops an analysis of the actual international regulatory trends.</p> |
