IO7 – MOOC for Teachers

Self-directed Learning Resource 3

Topic:	Communication & Collaboration
Title:	Introduction to Social Software
Time:	It will take you 2-3 hours to explore the following online social networking tools (Twiducate, Edmondo, Google Classroom) and to take notes of what is important to you.
Type of Resource:	Links, websites
Content of the Resource	Social networks encourage interactions between different people, members of a community or members across different communities. Students can use social networking sites by creating an online profile providing information about themselves and their interests. They can also create lists of other students with whom they will share information, and to view information published within the network by their classmates.
